

Our Biodiversity Our Food Our Health

and the Indo-German
Biodiversity Programme ...

We contribute to good health and nutrition by promoting sustainable agrobiodiversity practices for herbs and spices in the Western Ghats

We engage with communities for improved water availability and strengthen forest based livelihoods

We contribute to psychological health and overall well-being of rural populations by facilitating human-wildlife conflict mitigation

We support fair and equitable sharing of benefits arising from the use of biological resources and traditional knowledge with local communities

We promote wise use of wetlands for enhancing water and food security
